Aputure™

About Aputure

Company Profile

Aputure Limited is one of leading photographic appurtenance develop and manufacturing companies in China. We specialized in producing digital accessories for (D)SLR, and various of studio lighting system & its accessories.

Founded in 2005, Aputure Limited became a fast growing and dynamic business that has been the supplier of choice of the famous photographic equipment distributors and retailers in Europe and North America. Known for the smooth and great performance of our products, we export millions of products worldwide annually.

R & D Talent

The Aputure R&D division concentrates on innovation and develop new product. This is essential for the consistent and rapid implementation of the latest technological advances, as well as various and customized clients requirements. Meantime, Aputure recurrently cooperate with professional photographers, listen to their needs and turns demands into real facility, this has been the reason to keep us positioning at the forefront of the photography industry. We welcome OEM/ODM orders.

Manufacturing Capability

Our factory, occupies about 2000 square meters and hundreds well trained employees who can produce thousands products everyday. With that credible produce capability, we are poised to offer our clients products of large orders in a short time according to their requirements.

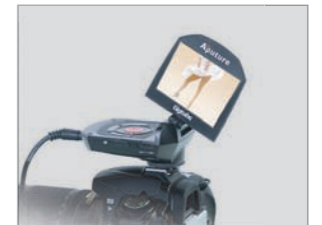

Quality Guaranty

Quality control is the weapon to make us outstanding in the business, we have completely production materials control (PMC), and quality control (QC) flows. At the same time, Aputure has lots of experienced process engineers who ensure constant product reliability and devise new varieties to meet special requirements of customer. Based on strictly quality control, we have confidence to provide our clients with top quality products.

Location and Logistic

Our headquarter and manufacture center locate in Shen Zhen, China, where is the world biggest electronic component producing and trading centre, as well as the world fourth largest seaport. Also the city sites beside Hong Kong, which is the world famous free-trade port and global aerial express hub. Those facilities guaranteed smooth transport to worldwide customers.

Gigtube DSLR Digital ViewFinder

The Aputure Gigtube is an innovative remote viewfinder device that is different with any remote ever offered because it includes a LCD screen. Compatible with any camera with a video output, the screen can automatically display an image immediately after shooting it, or can stream the video feed from live view. Moreover, the LCD screen is rotatable for different angle view and this gadget offers the remote shutter release function.

Screen: 2.5inch, 230,000pixel, 16M colors definition
Battery: rechargeable LIP, 1000mAh, Last 3 hours
Whirling angle: Up & down 180°, Left & right 270°

Model & Compatibility:

Model	Compatibility
GT1C	Canon EOS 1000D (Rebel XS), EOS 500D (Rebel T1i), EOS 450D (Rebel XSi)
GT3C	Canon EOS Canon EOS 7D, Canon EOS 50D, Canon EOS 40D, 1D Mark IV, Canon EOS 1D Mark III, Canon EOS 1Ds Mark III.
GT3C II	Canon EOS 5D Mark II.
GT1N	Nikon D700, D300.
GT1N II	Nikon D300S, D3, D3X.
GT3N	Nikon D90.
GT3L	Olympus E-P1, E-P2, E-410, E-420, E-450, E-510, E-520, E-620, E30.
GT1S	Sony A500, A550, A850, A900, A350, A300

When using Gigtube with Canon EOS 7D, 500D & 1D Mark IV, an additional accessory 'AV adapter' (provided in package) and original 'AV cable' (provided with camera) are necessary for operation.

Gigtube WIRELESS

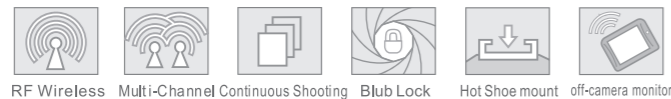

DSLR Wireless Viewfinder

The Gigtube Wireless is the latest device from Aputure that lets you control your camera from a distance, as well as live viewing from your camera by the 2.4G signals transfer technology. Gigtube Wireless Features:

- Live-view Wireless Display and Remote
- Working Distance up to 100 Meters
- 3.5", 230,000 Pixels TFT LCD
- Easy Mounting Screen Hood
- Strong Resistant to Interference

Screen	3.5" 230, 000 dot, 16M colors definition
Battery	Rechargeable Lithium Battery, 1200mAh
Frequency	433MHz, 2.4Ghz
Range	Up to 100 meters

Screen shade hood makes picture display in great condition even under glaring sunlight.

Model & Compatibility:

Model	Compatibility
GW1C	Canon EOS 1000D (Rebel XS), EOS 500D (Rebel T1i), EOS 450D (Rebel XSi).
GW3C	Canon EOS Canon EOS 7D, Canon EOS 50D, Canon EOS 40D, 1D Mark IV, Canon EOS 1D Mark III, Canon EOS 1Ds Mark III.
GW3C II	Canon EOS 5D Mark II.
GW1N	Nikon D700, D300.
GW1N II	Nikon D300S, D3, D3X.
GW3N	Nikon D90.
GW3L	Olympus E-P1, E-P2, E-410, E-420, E-450, E-510, E-520, E-620, E30.
GW1S	Sony A500, A550, A850, A900, A350, A300.

When using Gigtube with Canon EOS 7D, 500D & 1D Mark IV, an additional accessory 'AV adapter' (provided in package) and original 'AV cable' (provided with camera) are necessary for operation.

Trigmaster Plus

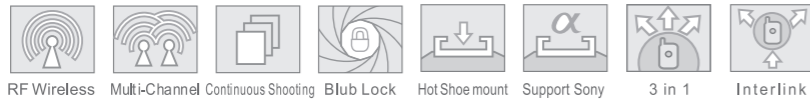

SMART SENSING TRANSCEIVER

Aputure™ Trigmaster Plus features transmitter and receiver system built into one pocket-size unit. Photographers need no worry about how many transmitters or receivers to bring on a shoot because it's all-in-one. The Interlink triggering mode enables one Trigmaster Plus to receive and transmit signals at the same time. Users can remotely trigger their camera, while camera then relays signal to remote flashes, enabling the whole system to work simultaneously.

Trigmaster Plus Features:

- Transmitter and Receiver built-in-one
- Auto-Sensing Technology
- Interlink Triggering Mode
- Strobe, Speedlight, and Camera all controllable
- Ultra-fast microchips enable sync speeds of 1/250sec
- Reliable, long range and speedy

Trigmaster Plus is universal for most cameras when used for controlling Flash. When used for controlling Camera, please consult the chart below for compatibility:

Model	Compatibility
TX1C	Canon EOS 500D(Rebel T1i), 1000D(Rebel XS), 450D(RebelXsi), 400D(Rebel XTi); Pentax K-7, *istD, *istDL, *istDs, *ist, *istDL2, K100D, K110D, K10D, K200, K20D.
TX3C	Canon EOS 7D, 50D, 40D, 30D, 5D, 20D, 10D, 5D Mark II, 1DMark IV, 1Ds Mark III, 1D Mark III, 1D Mark II N, 1Ds Mark II, 1D Mark II.
TX1N	Nikon D300s, D3X, D3, D700, D300, D200; Fujifilm S5 Pro, S3 Pro.
TX2N	Nikon D80, D70s.
TX3N	Nikon D5000, D90.
TX1S	Sony α500, α550, α850, α900, α350, α300, α200, α700, α100.
TX3L	Olympus EP1, EP2, E30, E620, E450, E520, E420, E510, E410, SP-570UZ.

Trigmaster

STROBE · SPEEDLIGHT · CAMERA

Trigmaster makes controlling your Strobe and Speedlight Flash wirelessly easier than ever. With a flash sync speed of 1/250s, a transmitting distance of 100 meters, and 16 different channels, you'll be able to work efficiently in a variety of conditions. In addition, Trigmaster also acts as a remote shutter trigger for your camera.

Trigmaster Features:

- Strobe, Speedlight, Camera all controllable
- Ultra-fast microchips enable sync speeds of 1/250sec
- Reliable, long range and speedy

Trigmaster is universal for most cameras when used for controlling Flash. When used for controlling Camera, please consult the chart below for compatibility:

Model	Compatibility
MX1C	Canon EOS 500D(Rebel T1i), 1000D(Rebel XS), 450D(RebelXsi), 400D(Rebel XTi); Pentax K-7, *istD, *istDL, *istDs, *ist, *istDL2, K100D, K110D, K10D, K200, K20D.
MX3C	Canon EOS 7D, 50D, 40D, 30D, 5D, 20D, 10D, 5D Mark II, 1DMark IV, 1Ds Mark III, 1D Mark III, 1D Mark II N, 1Ds Mark II, 1D Mark II.
MX1N	Nikon D300s, D3X, D3, D700, D300, D200; Fujifilm S5 Pro, S3 Pro.
MX2N	Nikon D80, D70s.
MX3N	Nikon D5000, D90.
MX1S	Sony α500, α550, α850, α900, α350, α300, α200, α700, α100.
